Education

National Institute of Technology, Kurukshetra — Aug. 2019 – June 2023
Bachelor of Technology in Civil Engineering — *Kurukshetra, Haryana*

R.P.M Academy — July. 2017 – May 2018
Intermediate in Maths — *Gorakhpur, Uttar Pradesh*

Experience

CHEGG INDIA PVT. LTD. — Febuary 2021 – December 2022
Subject Matter Expert — *Gorakhpur, Uttar Pradesh*

- Demonstrated expertise in Calculus by providing accurate and timely solutions to student queries.
- Contributed to the development of high-quality educational content, including textbooks, study guides, and online learning materials.
- Assisted in maintaining and improving the quality of the question-and-answer database through continuous feedback and evaluation.
- Acted as a mentor for junior team members, providing guidance and support in resolving complex academic issues.

Projects

Crypto Webapp | *HTML, CSS, JavaScript, ReactJS, Chakra UI, ChartJS* — **January 2023**

- Developed a cryptocurrency web application using ReactJS, HTML, CSS, and Chakra UI.
- Implemented ChartsJS library to visualize and display data about running exchanges and various cryptocurrencies.
- Utilized the CoinGecko API to fetch real-time data about exchange rates, market trends, and coin information.
- Designed an intuitive user interface with responsive layouts and interactive components.
- Ensured cross-browser compatibility and responsiveness for a seamless experience across different devices and platforms.

Text-Transistion | *HTML, CSS, JavaScript, ReactJS* — **July 2022**

- Created a text transition web app using HTML, CSS, and ReactJS to ensure a user-friendly interface with a clean and intuitive design.
- Included tools such as word count statistics, allowing users to easily analyze their text and added functionality to copy text and remove extra spaces, enhancing the user experience.
- The web app also provides features like enabling dark mode to cater to different user preferences.
- Utilized React Router for smooth scrolling within the web application.

Netflix Clone | *HTML, CSS, JavaScript, ReactJS* — **October 2020**

- Designed a Netflix clone using HTML, CSS, JavaScript, and ReactJS.
- Provided functionality to fetch data from an API and display it on the user interface.
- Utilized React.js components and state management to create a dynamic and interactive user experience.

Technical Skills
